

SALVESEN

If you need your event to be professional yet relaxed then our Salvesen Room would be ideal. It is an impeccably decorated room with a gorgeous antique fireplace as the centrepiece.

It is fully equipped with a flipchart, whiteboard and screen and can be set up with a data projector and lectern as required. The unique view overlooking both the otter enclosure river rapids and the gibbon enclosure to the East means your delegates can enjoy their conferencing while still being in the middle of nature.
